After the two (2) day period this will result in contestant having to pay the amount of the entry fee prior to competing. Turnouts may be paid at the venue the contestant is scheduled to compete in. NON-NOTIFIED TURNOUT (NNTO) - A NNTO will result in contestant having to pay the entry for that event performance and a \$20.00 additional fine. Contestants will not be able to compete in a SEBRA event until all fines are paid.

13.4 Contestant must begin run from mouth of gate or alleyway and move in a forward direction (cannot enter arena and set horse), if gate or alleyway is in the center of the barrel pattern. The bars in the alley must be removed or buried so that the center alley will be completely level, to be deemed safe by the judges. Any gate that barrel racers are required to enter, either center or side, the bar must be removed or buried. When using a center alley in the barrel racing, the barrel racers must leave through the center alley, unless the gate has been closed. The barrel racer can be fined for turning her horse off before going out the center alley. This is the sole opinion of the judges whether the rider causes this, or he can waive the fine if he thinks someone or something in the alley scares the horse.

13.5 There will be a sixty (60) second time limit for barrel racers to begin their run after entering the arena. One of the judges will keep time and enforce this rule.

13.6 Contestants cannot be required to begin run from an off-center gate or alleyway.

When there is a split or double alleyway, contestants may be required to run from mouth or alleyway, if they have a choice of either alleyway. When center alleyway is used, it will be posted whether gate will be open, closed or barrel racer's option to run out. Once a contestant is disqualified, she cannot work her horse.

13.7 Barrel racers are required to wear western attire (long sleeved shirts with or without collar, wrist length) western hats and boots in the arena, on the back of the bucking chutes and on the back of the timed event chutes one (1) hour prior to and during the performance time. Barrel racers may not wear worn out jeans while competing. Failure to comply will result in a warning for first offense, thereafter a fine of twenty five dollars (\$25) per occurrence.

13.8 Barrels are to be set on inside of each stake in a cloverleaf pattern.

13.9 Judges are responsible for measuring, staking and marking of the barrels and score-line, before the beginning of the first performance and thereafter measured off by judges before each performance from such stakes, to determine if stakes are still in their original places, measuring to be done with tape measure. Judges must turn in barrel stake and score-line measurements, in feet and inches, to rodeo secretary for recording before the first performance. Electric timers will be staked or marked and reset over that stake or mark for each performance. Judges will be responsible for setting up electric timers. Before setting the barrel pattern, take into consideration where the electric timers are to be set. Allow enough room to get cord to announcer's stand or suitable area. Make sure there is access to power if needed. Do not set course too wide for the electric eye to line up.

13.10 The standard barrel course shall be: ninety (90) feet between barrels one (1) and two (2), one hundred five (105) feet between barrels one (1) and three (3) and two (2) and three (3); sixty (60) feet from barrels one (1) and two (2) to score-line; Sixty (60) feet from score-line to the end of the arena for stopping room if the arena allows; no less than 45 feet. Decision is subject to Director Approval. To set course, measure length and width of arena to determine if standard course can be set. Measure score-line and stopping distance, then set barrels one (1) and two (2). Make an arc on the ground from barrel one (1) and barrel three (3) - then from barrel two (2) to three (3). Set the marker for barrel three (3) where the arcs cross, being sure that barrel three (3) is at least twenty (20) feet off the back of the arena fence. Measure score-line from both barrels one (1) and two (2) to be sure that the distance is equal for contestants going to either the right or left barrel first. Barrels one (1) & two (2) will be set a minimum of eighteen (18) feet off of the arena fences unless arena is one hundred (100) feet or less in width, then barrels one (1) & two (2) will be possible. If arena size does not permit standard course, measurements in proportion to the size of the arena shall be used, shortening the distance between barrels. The standard course lengths cannot be exceeded. If score-line is less than the maximum sixty (60) feet, there must be a minimum of fifty (50) feet from the chutes or arena fence for stopping room, unless the arena has a center gate or alley and contestants are allowed to run out the gate. When distance between barrels (1) one & 2 (two) is reduced from standard pattern, for every 10 feet barrels are reduced between (1) one & (2) two. The maximum distance between barrels (2) two & (3) three shall be reduced by (5) five feet.

13.11 When staking barrels for a center alleyway the patterns will be staked starting with the alleyway and measuring equal distance from each side of gate (not the arena).

13.12 The arena must be worked (not hand raked) after fifteen (15) barrel racers have run. Arena must be worked before each performance and before slack. During slack arena must be worked after same number of positions offered in performance, not to exceed fifteen (15) barrel racers. (Clarification: Rodeo management may work the ground after fewer than 15 barrel racers have run, but no more than 15 barrel racers may run without working the arena.)

13.13 A contestant will not be disqualified or penalized for touching a barrel.

- 13.14** If contestant knocks barrel over, there will be a five (5) second penalty for each barrel knocked over.
- 13.15** If all barrels are standing when contestant crosses the score-line after completing a qualified run, it is considered a qualified run, even if a barrel falls after she is flagged.
- 13.16** The use of an electric timer is required and must be backed up with a flag and two (2) timers. The manual times are to be averaged between the two (2) timers and recorded in hundreds and one zero (0) added to have a time recorded in thousands. If the electric timer fails three (3) times during one performance or two (2) times on the same contestant, times will revert back to hand flagged times with original stopwatch times to be used on all contestants. Manual times will be used for payoff only when the automatic timer is no longer serviceable.
- 13.17** There shall be no talking to flagmen, timekeepers or judges during the barrel racing event.
- 13.18** Both judges will be required to be present during the barrel racing event with one judge flagging line and the other judge watching to see that a qualified cloverleaf pattern is run. Flag judge will flag nose at the start and finish of the race. The line on fence for flagman shall be marked.
- 13.19** Judges may appoint responsible persons to replace barrels in proper position if barrels have been knocked down by a contestant during a run.
- 13.20** A SEBRA Official will draw the order in which the contestants will run.
- 13.21** Barrels used must be (55) fifty-five gallon size. Steel or plastic barrels may be used and barrel covers are permitted
- 13.22** After the barrels have been staked, no one will be permitted to go around the stakes or barrels for the duration of the barrel racing closer than fifteen (15) feet from the stakes used.
- 13.23** A barrel racer must compete in three (3) events to be eligible to compete at the finals. Barrel only events do count toward the (3) three event eligibility. The barrel only events must follow the same rules as if there were bulls & barrels. These may not be held in conjunction with any horse show events! You do not have to compete at events in (3) three different locations. For example: If you compete at Giddy Up Ranch Arena in Somewhere, NM on (3) three different dates these count toward the (3) three event rule.
- 13.24** Contestant will be disqualified, if after crossing score-line and being flagged by the flagman, she re-crosses score-line before completion of a true cloverleaf pattern run.
- 13.25** Reruns in the barrel race will be taken at the barrel racer's discretion, either at the end of the barrel race or immediately following the performance. The same rule applies to the slack. Reruns will be taken either at the end of the barrel race or immediately

following the slack. If contestant chooses to make their rerun immediately after, the ground must be worked regardless of the number of horses that run during the performance.

13.26 Rerun to be given contestant at judges' discretion should contestant be fouled. Any penalties incurred during original run will be added to rerun at judge's discretion. If an entire performance is rerun because of barrels not being in original places, then all contestants will run over and any penalties are disregarded.

13.27 It is highly recommended that stock not be watered within twenty-five (25) feet of the barrel stakes.

13.28 No one on horseback, besides contestant, will be allowed to remain in arena during contestant's run.

13.29 A contestant shall compete in the performance in which they are entered and be ready when called upon to compete or be disqualified from that go round of competition.

13.30 The same horse is able to run more than one time but with a different rider. The judges will draw at least five (5) contestants, splitting the contestants riding the same horse.

13.31 You are only allowed to enter one time per performance you are competing/entered.

13.32 Barrel Only Events must have minimum added money of \$200 and at least 10 contestants must enter before the event can be held. Contestants must enter during the specified call in time listed on the schedule. All rules apply as if the event was a bulls and barrels and cannot be held in conjunction with horse show events. The only rule exception is only one judge is required.
